### *2021 Vintage*

The 2021 growing season was characterized by a prolonged period of mild temperatures and abundant sunshine. These ideal conditions allowed the grapes to ripen gradually and uniformly, resulting in wines that exhibit remarkable balance and complexity. The prevailing drought conditions led to limited water availability, creating a challenging situation for the grapes. Despite this, the grapes thrived under stress, producing exceptional fruit characterized by smaller-sized berries that possess intense flavors and concentrated characteristics.

### *Winemaking*

Hand-harvesting was conducted in the early morning to preserve the grapes' freshness. The vineyard block was strategically divided into smaller sections by our winemaker, allowing for distinct fermentation techniques to be employed. The primary fermentation lasted 14 days and the malolactic fermentation process was carried out to completion. Throughout the aging process, a combination of French oak barrels was used. Approximately 60% of the barrels were new oak, imparting rich flavors and aromas, while the remaining 40% were previously used barrels, adding subtle nuances to the wine's profile.

### *Tasting Notes*

A true delight for the senses. The wine opens up with a rich and lush texture, with silky tannins that coat the palate beautifully. The finish is extended, leaving a lingering impression that is sure to delight any wine lover. Despite its density on the palate, this wine also showcases an elegance that comes from the abundance of fruit aromas: raspberry, black currant, cherry, and plum, blended together with dark spices, cedar and leather, creating a complex and layered taste experience. A hint of vanilla and caramel from the oak adds the perfect finishing touch, making this Cabernet Sauvignon a wine that is sure to impress. The wine displays an energetic and fresh character right now that suggests it will age gracefully over time.
